Customer Info Tips

- Use the client's first name(s) or first name / last initial.
- Ask your client for a current email address. Have them review their email address on your device before sending to be 100% sure they'll receive their photo.
- Always enter a unique identifier, if available.
- Select the product category, if available.

Tip: There's no right or wrong way to take a snap. Take the photo first or save it for last!

Tap **Capture Photo** or the Camera Icon, then select 'Take Photo'. Once you've snapped the photo, if you're happy with it, select 'use photo.' If you're not happy with the photo and would like to take another, select **Replace Photo**.

After you've taken the photo and entered your client's information, tap **Send**
